01 COLOUR

BORDEAUX
#63010F
Extracted — the only ink in the master file. RGB 99 1 15 · CMYK 0 99 85 50. Contrast on white 13.6:1.

INK
#1A1315
Recommended. Body copy, captions, single-colour lockup.

IVORY
#F6F2EC
Recommended. Default ground for print and editorial.

WHITE
#FFFFFF
Reversed ground, packaging, digital interface.

BLUSH
#CAAAAA
30% tint of Bordeaux. Rules, fills, quiet surfaces.

02 CLEAR SPACE & MINIMUM SIZE

Clear space equals one quarter of the wordmark's overall height (X) measured from the ink edge on all four sides. No type, rule, image edge or trim may enter this zone.

MINIMUM WIDTH, PRINT	40 mm — holds the hairline at roughly 0.15 mm
MINIMUM WIDTH, SCREEN	260 px at 1× — hairline lands on a single pixel
ASPECT RATIO	5.288 : 1 — lock when scaling, never distort

03 MASTER ARTWORK

- Supplied file: PNG, RGBA, 2880 × 973 px at 300 dpi, transparent ground.
- Live ink area 2591 × 490 px — 219.4 × 41.5 mm at 300 dpi. File padding is uneven (142 / 236 / 147 / 247 px), so trim to the ink before laying out.
- Single flat ink at 100% opacity. No gradients, strokes or effects.
- A vector master (SVG, PDF or EPS) is still outstanding. Raster artwork will not survive large-format print, embroidery, foil or engraving.

TYPOGRAPHIC PAIRING

- The wordmark carries the whole personality. Supporting text should stay quiet and let it speak.
- Labels and navigation: geometric sans, light weight, wide tracking — Futura, Poppins, Montserrat.
 - Running copy: a neutral grotesque at regular weight — Neue Haas Grotesk.
 - Optional editorial voice: a high-contrast Didone — Playfair Display — which echoes the mark's 3.5 : 1 thick-to-thin.
 - Never pair with a second script, or with a heavy slab.

MISUSE

- Do not recolour outside the palette above.
- Do not stretch, condense, skew or rotate.
- Do not add shadow, glow, outline or bevel.
- Do not replace the name in a substitute script.
- Do not crop the ascender or descender flourishes.
- Do not rebuild the mark — always place the master.

STILL TO SPECIFY

This sheet records what the artwork itself defines. A compact monogram for small applications, photography direction, and packaging, retail and interface guidance still needs a positioning statement, tone of voice and a grid.
